OUR VERIFICATION PROCESS

How Every Batch Is Verified

We do not take a manufacturer's word for it. Every batch goes through the same four steps before it reaches you.

01

Synthesis

Compounds are produced with pharmaceutical-grade raw materials and controlled synthesis for batch-to-batch consistency.

02

Purity Testing

Each batch is screened by HPLC and confirmed by mass spec. Anything under our purity bar does not get listed.

03

Independent Third-Party COA

Verified by independent USA labs (Chromate Labs and BT Labs) so there is no conflict of interest in our numbers. We also publish endotoxin data.

04

Ships With Documentation

The batch-specific COA is on the product page before you buy and travels with your order.

View Our COAs

WHAT SETS US APART

Why Researchers Choose Xeno

Verified Purity, Every Batch

HPLC tested, mass-spec confirmed. No batch ships without clearing the bar.

Dual-Lab COAs + Endotoxin Data

Independent testing across two US labs, plus transparent endotoxin reporting most shops never publish.

Same-Day, Discreet Shipping

In before 2PM EST ships the same day. Plain packaging, every time.

Real Human Support

A real person answers within 24 hours. No tickets into the void.

CUSTOMER REVIEWS

Trusted by Researchers Nationwide

Trustpilot  4.9 | Excellnet

Shipped fast, great products

Shipped fast asf ngl. I'm happy with my purchase and its a very high quality product too.

Joey H

March 5, 2026

Wonderful customer experience

Wonderful customer experience and extremely fast shipping! Xeno Peptides gave me assurance that I was being delivered an extremely well made product and is my go-to shop for my peptide needs.

Venkata Ravila

March 5, 2026

Fast shipping and easy order process

Fast shipping and easy order process. Paid through Zelle and they confirmed shortly after and same day order shipped. Products were high quality and they included free BAC water.

GOOD TO KNOW

Frequently Asked Questions

Find quick answers to the most common inquiries about our chemical supply services.

What purity standard do your peptides meet?

Every compound is tested to high purity by HPLC and confirmed by mass spectrometry. Batches that do not clear our bar are not listed.

Are your products third-party tested?

What is a COA and where do I find it?

How do I order and how do I pay?

Why do I need a peptide in my cart to buy BAC water?

How fast do you ship and where?

How should I store peptides?

What is your return policy?

Stay Ahead of the Next Drop
